Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claim 1 read on an iodonium compound and a sulfonium compound which are different inventions, thus the examiner has separated the claims wherein group I claims the iodonium compound and group II claims the sulfonium compound in claim 1. Group III, claim 10 reads on a different cyclic sulfonium compound which is not the same as the sulfonium compound in group II.

All claims dependent on claim 1 will be examined with respect to the iodonium or sulfonium compound upon election of group I or group II.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1,3,5-9,14-17, drawn to an iodonium compound, classified in class 570, subclass 101.
 - II. Claims 1-9,14-17 drawn to a sulfonium compound, classified in class 568, subclass 18.
 - III. Claims 10-13,18, drawn to a sulfonium compound, classified in class 568, subclass 18.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions group I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the compounds are not disclosed as capable of use together.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Due to the separation of the iodonium and sulfonium compound into two groups a telephone call was not made to applicant.

Art Unit: 1752

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
